From 1966 until 1974, the *Journal of the American Statistical Association* published a special section on "The Theory of Statistics". The section was edited by the late Professor W. G. B. Fisher, who was a leading authority on the foundations of statistics. The section was a forum for the presentation of original research papers on the foundations of statistics, and it was a valuable contribution to the literature of the field. The section was discontinued in 1974, but the papers published in it are still available in the *Journal of the American Statistical Association*.

Важнейшие результаты нашей работы по теории инвариантов и их приложениям к теории дифференциальных уравнений, а также к теории функций комплексного переменного, изложены в монографии «Инварианты и приложения к теории дифференциальных уравнений» (Москва, 1968 г.). В ней приведены основные результаты, полученные в последние годы, а также даны ссылки на оригинальные работы, в которых они были впервые опубликованы. В книге также приведены некоторые результаты, полученные в последние годы, а также даны ссылки на оригинальные работы, в которых они были впервые опубликованы.
